SUMMARY

Year 1 Cybersecurity student with professional experience in electronics sales. Proficient in the basics of networking (TCP/IP), Python scripting, and IoT device configuration.

WORK EXPERIENCE

Retail Salesperson, AI Home

Apr 2024 – Dec 2024

- Configured and deployed IoT devices and smart home ecosystems for customers
- Conducted technical diagnostics and firmware reconfigurations on faulty hardware
- Achieved a monthly sales milestone of RM15,000 through effective product demonstrations.
- Managed digital inventory and point-of-sale (POS) systems to ensure data accuracy and transaction security.

Event Facilitator, BThrive

Apr 2026 – July 2026

- Coordinated technical logistics and event flow for high-profile corporate clients including Puma and Guidewire.
- Facilitated structured activities and team-building programs.
- Provided technical support for AV equipment and event-specific hardware to ensure zero downtime during functions.

EDUCATION

Bachelor of Computer Networking and Security

Sep 2025 – Sep 2028

Sunway University

- Vice President of a club

Foundation in Science and Technology

Aug 2024 – Aug 2025

Sunway College

- Final CGPA: 3.50

PROJECTS

Network Monitoring System (https://github.com/Yzutei/Network_Dashboard)

- Personal Project (In progress)
- Developed a lightweight monitoring system for real-time bandwidth tracking and active network socket analysis.
- Built a FastAPI backend to capture system metrics and correlate network traffic with specific Process IDs (PIDs).

KEY SKILLS

Languages & Frameworks

- C/C++
- HTML & CSS
- Python
- Java
- javascript
- Git
- Docker

Technical skills

- IoT Device Configuration
- Smart Home Protocols (Wi-Fi/Zigbee)
- Socket Analysis
- TCP/IP Fundamentals

Conversational Language

- English
- Malay
- Chinese
